WORK EXPERIENCE

EngineUZ

Oct. 2021 – Jun. 2022

Frontend Developer - Private Contractor

Selangor, MY

- Worked primarily as the main frontend developer to build web applications using React.JS and Material UI with Node and Express.JS as the backend.
- Re-architected major segments of the application to cleaner, more structured and flexible code.
- Translated complex business logic into the presentation layer, making the UI usable and easily maintainable.
- Built 2 modern web applications that were used by over 1,000 people daily.

BrandNeo

Apr. 2020 – Mar. 2021

Full Stack Developer - Private Contractor

Selangor, MY

- Developed several modern websites to clients that were used to elevate their businesses and leverage sales.
- Produced maintainable code and developed business/e-commerce sites with high SEO ranking.
- Used trending technologies such as Next.JS and Framer Motion to create artistic websites with an added custom CMS feature.

EDUCATION

Xiamen University Malaysia

Sep. 2019 - Current

Bachelor of Engineering in Software Engineering (Honors), Software Engineering

Selangor, MY

- CGPA of 3.59.
- Maintained 95% scholarship throughout the entire course of study.
- Participated in web development of the student council website, orientation facilitator and canteen helper.
